REPORT ON SLOW and ADVANCED LEARNERS

During teaching learning process it was found that few students are weak in understanding the subject, remembering the previous knowledge. Whereas very few are easily understand the subject with adequate previous knowledge of the subject.

Therefore it is necessary to make a bridge between such two types of students. So I have decided to enhance the slower up to remark

OBJECTIVES:

- 1) To identify slow learners and advanced learners from the given class.
- 2) To search the causes of slow learners
- 3) To make plan to enhance the slower
- 4) To provide extra knowledge to the advanced learners.

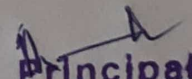

ACTION:

A) Identification:

Some students do not answered school level questions of physics. These students are unable o understand the subject properly They cannot properly explain the facts, phenomenons, formulae etc Such students are identified as slow learner .Listed all

B) Causes:

Lack of basic knowledge of physics and mathematics
Could not concentrate properly in class
Lack of confidence
Feeling difficulties during study

C) **Plans:**

Arrange extra classes on fundamentals of the subject

Taking extra tests

Developing faith and confidence

Those students, who answered quickly the higher secondary school level are considered as advanced students.

They can understand and express the subject properly

Need to continue in study as well as advanced knowledge of subject

These students are very much interested in current events and development of science and technology
