REPORT OF SLOW AND ADVANCED LEARNERS

During teaching learning process it was found that few students are weak in understanding the subject, remembering the previous knowledge. Whereas very few are easily understand the subject with adequate previous knowledge of the subject.

Therefore it is necessary to make a bridge between such two types of student. So I have to decide to enhance the slower up to remark.

OBJECTIVES:

- 1) To identify slow learners and advanced learners from the given class.
- 2) To search the cause of slow learners
- 3) To make plain to enhance the slower
- 4) To provide extra knowledge to advanced learners

ACTION:

A) Identification:

Some student do not answers school level question of physics. These students are unable to understand the subject properly, they can not properly explain the facts, phenomenon, formula etc such student are identifies as slow learner. Listed all

B) Causes:

Lack of basic knowledge of Computer
Could not concentrate properly in class
Lack of confidence
Feeling difficulties during study

C) Plans:

- Arrange extra classes on fundamental of the subject
- Taking extra tests
- Developing faith with confidence
- Those student, who answers quickly the Computer basic level question are considered as advanced student.
- They can understand and express the subject properly, need to continue in study as well as advanced knowledge of subject.
- These students are very much interested in current events and development of science and technology.
